

RCMS Vision Statement: J.A.G.S.

In the spring of 2010, the principal challenged the school to formulate a catchy vision statement that summarized the school's missions and beliefs. Development of the statements took place in each homebase classroom. Students and teachers collaborated to select the best from all options and it was then presented to the School Improvement Team for a vote. The school adopted JAGS as the new vision statement, an acronym for *Jointly Achieving Goals and Success*.
