

A. Records with prepopulated values by Division of School Business

The Division of School Business compiled the data in the template as following:

- Downloaded all the individual ABC transfers in the Allotment system for your LEA, for 2021-22.
- Calculated the initial allotments after adjustments for Charter Schools, and NC Virtual Schools to reflect the amount of funds in each PRC accessible to the LEA.
- Assessed if each individual transfer decreased the PRC it was transferred from by 5% or more OR increased the PRC it was transferred to by 5% or more.
- Only those transfers that met the 5% or more threshold were included in the template. *Transfers between PRC 130 and 131 are excluded from this report.*

Please note: RCS only had ABC transfers in 2021-2022 between PRC 130 and 131
